Stainless steel is used everywhere, especially in the food and pharmaceutical industry. The extremely durable material has great resistance against low and high temperatures and is easy to clean.

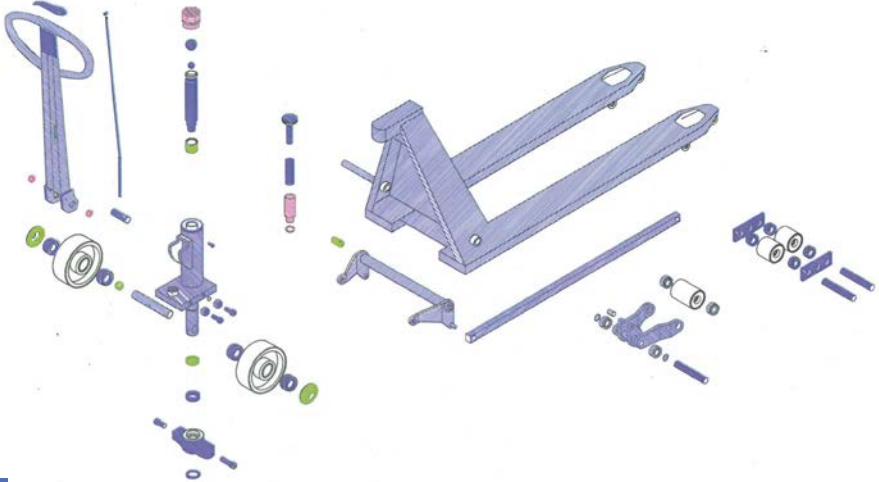

TVH offers you a wide range of handling equipment and attachments made of stainless steel. The drawings shown on page 4 will guide you to the right choice: semi-stainless or 100% stainless.

Find all information about these stainless steel products in this product special and choose to work efficiently in your work environment.

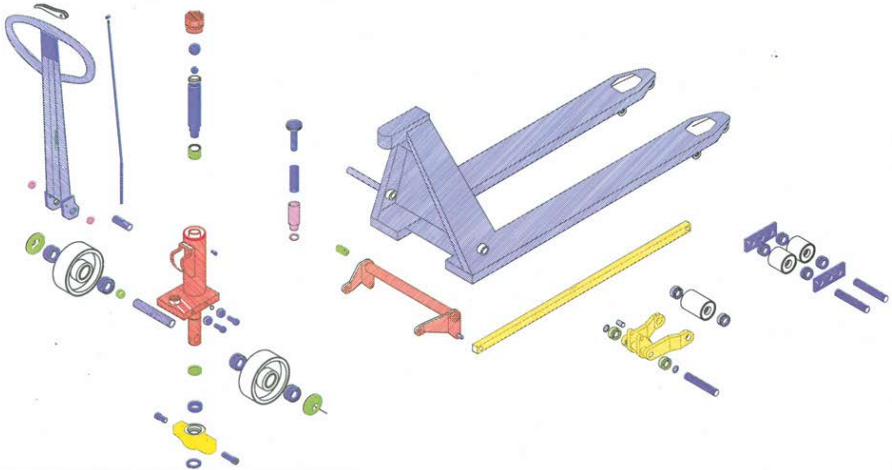

100% STAINLESS STEEL MANUAL PALLET TRUCK

- Stainless steel
- Nylon/Pom
- Brass/Bronze

All pins, axles, bearings and bolts: stainless steel
 Stainless surfaces on pump, chassis, towbar, pushrod and rocker arm: shotblasted

SEMI-STAINLESS STEEL MANUAL PALLET TRUCK

- Stainless steel
- Nylon/Pom
- Warmgalvanised steel
- Brass/Bronze
- Spraymetallised steel
- Alu

All pins, axles, bearings and bolts: stainless steel
 Stainless surfaces on pump, chassis, towbar, pushrod and rocker arm: shotblasted

Did you know that a calibration certificate and/or legal-for-trade certificate are required for your handling equipment if it will be used for commercial purposes? These certificates are also necessary to comply with the Solas regulation, which requires that the gross weight of containers is known before they are loaded onto the ship.

Remember, there are three important reasons for having your weighing pallet trucks calibrated:

1. To ensure the accuracy of the weighing
2. To make sure that the pallet trucks show a reliable value
3. To ensure readings from the pallet truck are consistent with other measurements

Opt now for the weighing pallet trucks of our Climax range.

STAINLESS STEEL CLEANER - 10 L

REF 100PS2261

- Biodegradable
- Extremely strong, concentrated alkaline foam cleaner
- Suitable for the removal of almost all common contaminants in the food industry
- Saponifies and effortlessly removes pollutants based on vegetable and animal fats and oils, proteins and similar contaminants

FOOD GREASE - 500 ML

REF 100PS2253

- Multipurpose grease with long-term lubrication on food processing equipment, where incidental food contact may occur
- Registered NSF H1 for use in the food industry
- This aluminium complex grease has a good thermal stability with an operating temperature up to 140 °C and protects against corrosion
- Can be applied on all metal constructions used in the food industry: hinges, valves, chains, gears, joints ...

INDUSTRIAL DEGREASER - 500 ML

REF 100PS2254

- Heavy-duty cleaner which dissolves and removes grease, oil, lubricants, adhesives and contaminants from equipment, machinery and metal parts
- Can also be used as a carbon remover in food processing areas
- NSF A8 and K1 certified

STAINLESS STEEL KLEEN - 500 ML

REF 100PS2255

- Water-based, foaming cleaner for degreasing and cleaning shiny metal surfaces
- The product combines a high cleaning power with the application of a durable protective coating, in one step
- NSF C1 registered for use in the food industry

INDUSTRIAL GREASE GUN

REF 100PS2256

- Capacity: 500 cc M 10x1
- With 1 high-pressure hose: 11 x 300 mm
- With 1 angled spout, 2 precision machined hydraulic couplers, 4 jaws
- Operates with grease
- Sealing system: o-ring and ball valve prevent grease compressed in the grease gun head from feeding back
- Designed to be utilised under rough conditions with variable stroke system

LOW TEMPERATURE EXTREME-PRESSURE GREASE – 400 G

REF 100PS2262

- Calcium sulfonate complex grease, recommended for various applications in the food and food related industry operating under severe conditions (high load, high temperature, water, dust)
- Very suitable to lubricate pelleting presses
- NSF H1 registered: No 147140 and ISO 21469 certified
- Assures long machine life while reducing contamination problems as required by the Hazard Analysis and Critical Control Point System (HACCP)
- Excellent thermal stability. It regains its original texture after cooling to ambient temperature
- Extraordinary water resistance, no significant loss of consistency is observed even with high amounts of water entering the grease

BIODEGRADABLE HYDRAULIC FLUID - 20 L

REF 100PS2260

- Oil for hydraulic systems presenting risks of leaks of fluid into the environment and incidental contact with food: grape harvests, crop harvests ...
- Reinforced protection and efficiency of equipment due to a very high viscosity index
- Excellent anti-wear properties
- Operating temperatures: -20 °C to 70 °C
- NSF H1 / ISO 15380 HETG / Poclairn Hydraulics 11-06 / ISO 6743-4

HYDRAULIC OIL FOR COLD STORE APPLICATIONS

REF 100PS1264

- ISO VG15
- 5 l

REF 100PS2258

- ISO VG22
- 20 l

REF 100PS2259

- ISO VG32
- 20 l

TOTAL SOURCE

Recommended for all kinds of hydraulic systems operating under high pressure (limit as indicated by the pump manufacturer) and high temperature.

- Lubricants especially suitable for hydraulic systems working under extreme temperature variations and equipment operating outdoors: easy start up at low temperature and regular operating in all seasons
- Superior thermal stability avoiding the formation of sludge even at high temperatures
- High protection against wear insuring maximum equipment life
- Good anti-foam and air release properties by using silicon free components
